shenandoah's SHENANDOAH'S SHENAND SALES OF all Production Sale

SATURDAY, NOVEMBER 30, 2024 AT THE FARM | QUICKSBURG, VA | 1:00 PM EST

Simmental & SimAngus Genetics 25 Age-Advantage and Yearling Bulls & 37 Pairs, Bred Females and Ready-to-Breed Heifers

Visit the historic Shenandoah Valley and take in the beautiful colors of the season and enjoy the nearby historic sites. Close area attractions include, Virginia Museum of Civil War: New Market State Historical Park / Shenandoah Valley Travel Association [New Market] / Andrew Zirkle Mill [Forestville] / Showalter's Orchard [Timberville] / Shenandoah Caverns [Quicksburg]

Directions to the Sale

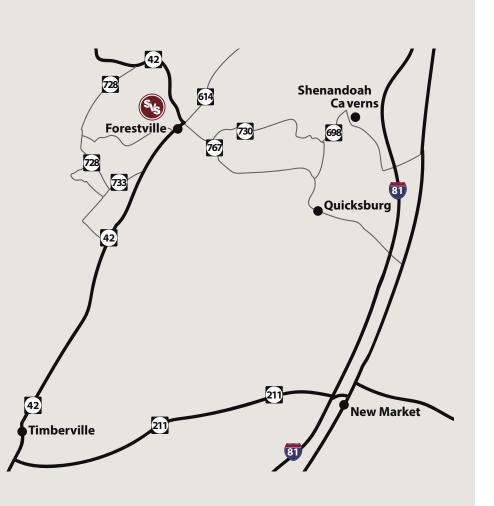

From the North:

From I-81 take Mt. Jackson Exit# 273. Turn RIGHT off the ramp. Turn LEFT on S. Middle RD. Proceed through the next stop sign to a 4-way stop at Forestville. Go straight through the intersection onto RT. 42 South (Senedo RD.) Go approximately 0.3 and turn right on S. Middle RD. Farm is second lane on the RIGHT. (6 miles from interstate).

From the South:

From I-81 N take New Market Exit# 264. Turn LEFT off the ramp onto RT. 211 West. Turn Right at the stoplight at Timberville onto RT. 42 North (Senedo RD.) Turn LEFT on S. Middle RD. Farm is second lane on the RIGHT. (9 miles from interstate).

DO NOT FOLLOW GPS WHEN COMING FROM THE SOUTH. IT IS INCORRECT.

WELCOME FELLOW CATTLEMEN AND CATTLEWOMEN!

It's sale time and we're SUPER excited about this offering. Please join us Saturday, November 30, 2024 at 1:00 pm in Virginia's beautiful Shenandoah Valley.

I've been breeding Simmentals for 48 years in the mountains of rural Virginia. It's my passion.

The females have been bred to be high maternal, performance ladies. These are homegrown genetics at their finest...bred with purpose...bred with a vision. They're the most correct, easy-keeping, good-natured, functional, trouble-free mamas with style that I know how to breed. They are bred for real cattlemen and cattlewomen...and they flat out get the job done! The females in this offering were destined to be my replacements. They're the best of my best.

And great females make great bulls! These bulls are athletes developed in Virginia range conditions and all passed a complete breeding soundness examination. They're designed to efficiently convert grass to meat, thrive on fescue, travel rough country, and withstand the wide weather extremes of these mountains.

Many fads have come and gone, but we've continued to breed proven, practical, predictable cattle that thrive in many environments. We focus on maintaining original cow family genetics that got us where we are today. We don't just focus on numbers. Cattle pay our bills. These are one-of-a-kind, outcross genetics you won't find anywhere else. Our motto is "Home of the Keepin' Kind" and the cattle in this offering are definitely keepers! We're committed to sharing our top genetics and you can buy with confidence.

We nearly cancelled this sale due to the illness and passing of my mother in October. But our loyal customers kept asking about our sale and we didn't want to disappoint them. And, we didn't want to disappoint Mom, as she dearly loved these sales.

Up until a few years ago, my mom, Maxine, and aunt, Madeline, identical twins, scrubbed the barn floor on their hands and knees so it was clean enough for you, the guests. They dusted the decorations and arranged table cloths and utensils, and made sure everything was perfect for you, the guests. In later years they coached from the sidelines. And they so enjoyed folks stopping by to chat while they watched the sale from their car. My aunt will be attending this sale. If you see an amazingly young 96 year old lady observing from a car, please stop to say "Hello"!

And also in October, we lost a dear friend, Carl Cook. He and his wife, Kay, have helped with

Lisa Zirkle, Owner

sale preparations for years. Carl was a talented and wonderful man who could design, build and repair anything. He repaired our broken dinner bell which we'll ring in his honor to announce the start of the sale. Indeed, the world would be a better place if there were more Maxines and Carls!

Please visit our website for the on-line catalog and videos and contact me with questions. Sale time is an extended family reunion where friends gather to talk cow. It continually amazes us how many long-term friendships develop from the purchase of a cow. We appreciate our customers who believe not just in our cattle, but the program behind them.

A sincere thanks to those good-hearted, dedicated friends who help make this sale possible, with special thanks to Barry Armstrong for his help year-round.

Cattle will be available for viewing after 2 pm Friday, November 29th. Stay safe and healthy my friends.

P.S. Mom and Carl, we did it! We pulled it off. This one's for you!!!

Hope to see you soon ! - Lisa Zirkle

SALE LOCATION

Shenandoah Valley Simmentals 3691 S. Middle Road Quicksburg, VA 22847 Directions and sale map available on the inside front cover.

VIDEOS

Videos of all the lots will be available prior to the sale at www.dvauction.com and ShenandoahValleySimmentals.com

TERMS AND CONDITIONS

All Animals will be sold in accordance with suggested guidelines of the American Simmental Association.

ANNOUNCEMENTS

Announcements made sale day take precedence over printed material in the catalog or other printed material associated with the sale.

SALE REGISTRATION AND PAYMENT

Buyer numbers will be issued with a valid ID, and payment is due the day of the sale, unless prior arrangements have been made. Timely payment of purchases is much appreciated.

HOUSING YOUR PURCHASE

Bulls and females will be fed and cared for free of charge for one week following the sale and will be housed at a rate of \$7.00 per day thereafter until you pick up your purchase. All animals must be picked up by December 14, 2024 to allow SVS space to develop new cattle.

INSURANCE

Insurance will be available sale day or by asking any of the team members. We strongly recommend Jame Kreiger 812-208-0956

We are proud of our heritage and our farm's history. We strive to preserve the past to honor those before us.

LIABILITY

All persons attending the sale do so at their own risk. Shenandoah Valley Simmentals assumes no responsibility, legal or otherwise, for personal injury or loss while attending the sale, or for damages, illnesses, accidents or theft. All cattle are at the purchaser's risk as soon as sold. Assistance will be given in loading and shipping of cattle, but no risk is assumed by anyone associated with the sale.

ACCOMMODATIONS

Quality Inn Shenandoah Valley	540-740-3141
162 W Old Cross Rd, New Market, VA 22844	
Holiday Inn Express Woodstock	540-459-5000
1130 Motel Dr, Woodstock, VA 22664	
Courtyard by Mariott	540-432-3031
1890 Evelyn Byrd Ave, Harrisonburg, VA 22801	

REGISTRATION AND UPDATED EPDS

All cattle will be registered with the American Simmental Association. Please note EPDs may change from the time the sale book is printed until the registration papers are transferred. EPDs printed in the catalog were pulled from IGS on November 12, 2024. Shenandoah Valley Simmentals will transfer cattle to the buyer at the seller's expense after full payment is received. Buyers must provide the sale clerk with complete information for transferring registration certificates.

HERD HEALTH

All females will sell with proper health certificates for immediate interstate shipment. The bred females have been pregnancy examined and are confirmed safe, unless otherwise posted or announced. For cattle leaving Virginia, a Certificate of Veterinary Inspection will be available for immediate shipment. Cattle that require additional tests will be conducted within one week of the sale at the buyer's expense. Each animal will be at the purchaser's risk immediately following the auction.

LIVE BROADCAST

$\int u = \int u = \int u$

nline **DVAuction**

All bulls have passed a complete breeding soundness examination performed by a veterinarian. All bulls are guaranteed for breeding soundness and injury for the first breeding season, defined as 90 days from the first turnout, barring abuse, neglect and poor management practices. If a replacement bull is needed, one of equal value will be provided. If a replacement bull is not available, a sale credit will be provided to use at the next SVS sale minus the documented salvage value of the previous purchase.

SEMEN INTEREST

Shenandoah Valley Simmentals will be selling full possession and 70% semen interest of all bulls and retaining 30% semen interest. The buyer has full control, full possession, 100% of the salvage value and 70% semen interest. Any bulls that Shenandoah Valley Simmentals wishes to collect for in-herd use semen will be done at the buyer's convenience and Shenandoah Valley Simmental's expense. This will affect very few bulls.

Looky, looky at SVS CLEMENTINE KCAB! Who wouldn't love this feminine, red beauty!!! With amazing females in her pedigree like SVS RISING SUN CA9B and COTT KELBY 019K, this female is destined for greatness. We went old school to design her by bringing back our BF K030 RED SNAPPER genetics. She's proof that oldies are still goodies! This gorgeous, cherry red, deep-bodied female with a pretty udder and outcross genetics can be bred many ways to create outstanding offspring. Her SVS TRADITION KXFN bull calf at side shows what she can do!

SVS DAPHNE KZ19 is hard to offer. Backed by the genetics of our tremendous SVS LILY XS19 donor as her maternal granddam and SVS HUMDINGER TR21 as her maternal great grandsire, and SVS VIRGINIA BELLE ASHA on the sire's side, she's packed with performance. She's smooth, she's deep, and she's good and is doing a super job raising her SVS TRADITION KXFN bull calf. Females like her don't come along everyday!

 Adj. BW: 83# / Sired by SVS Tradition KFXN (ASA#: 4160511)

SVS ROSALYN KUR2 is a beautiful female with a gorgeous udder, typical of SVS KEEP DREAMIN' RNB1 genetics. And stemming from our SVS BLACK VANESSA and SVS VIRGINIA BELLE ASHA donors, she's exactly what you'd expect. She's moderate, deep, broody and quiet as a kitten. Here's a front pasture female for sure! She should calve before sale date! Her maternal sibling is being offered as Lot 33.

PE to SVS TRADITION KFXN (ASA# 4160511) from 1/13/24 to 4/3/24. What a beauty! Her picture says it all. She's smooth, she has capacity, and she has an impressive pedigree and EPDs to boot. SVS ALEXIS KGZF is perfect in every way and should be staying here. Expect great things from this young lady! Her maternal sibling sells as Lot 39. Quality runs deep in this cow family.

 PE to SVS TRADITION KFXN (ASA# 4160511) from 1/13/24 to 4/3/24.

 This female is a combination of two of our most productive, original cow families,

 SVS BLACK RUBY LB7B and SVS LEADERS RED ROSE.

 SVS CASSIE KAP7 has a touch of frame and stretch in a smooth, pretty profiling package.

 These outcross genetics have stood the test of time and continue to get the job done!

Al'd to KBHR Honor H060 (ASA# 3789447) on 6/3/24. PE to SVS TRADITION KFXN (ASA# 4160511) from 6/23/24 to 9/25/24.

Don't we all need some happy times? SVS HAPPY TIMES KGZ2 is a broody, puppy dog quiet heifer sired by KOCH BIG TIMBER 685D. Her dam, a SVS PATRIOT CXT7 daughter, has a picture-perfect udder and he's known for producing outstanding females. Expect nothing but good times from her!

Al'd to Hook's Frontline 40F (ASA# 3403352) on 6/3/24. PE to SVS TRADITION KFXN (ASA# 4160511) from 6/23/24 to 9/25/24.

This TJ JACKPOT 525D daughter, SVS GOOD N PLENTY KCZW is moderate in frame, deep in rib, and has a quiet disposition. Her maternal genetics, with a measure of SVS HUMDINGER TR21 thrown in, have been a mainstay in our herd for many years. This female is going to be flat out good!

 Al'd to RVR Rogue 530H (ASA# 3923371) on 6/7/24. PE to SVS TIMBERLINE

 FB09 (ASA# 3578613) from 6/27/24 to 9/25/24.
 9/25/24.

This eye-appealing female combines SVS BLACK RUBY LB7B, SVS HUMDINGER TR21 and WLE LAST CALL Y716 genetics. She's long-sided, has extension of neck, is deep, feminine and up-headed. In other words, she's pretty! SVS FELIN' FINE HFC7 is the right kind. We ran out of time when moving females from other farms for this sale, so we grabbed whatever was on the home farm. She just happened to be here. That's why she's the only older female being offered..and she's a good one!

WWW.DVAUCTION.COM

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

- 1. Create an account at www.dvauction.com under the "register" tab
- Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
- 3. Tune in for the sale and make you purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Here's a pretty little lady, SVS SING A SONG LFZ8. Combining the SVS JOKERS DARLIN' MKD8 and SVS BLACK RUBY LB7B cow family genetics with those of CCR COWBOY CUT 5048Z and HOOK'S YELLOWSTONE 97Y produced this high volume, moderate frame female. She's definitely a keeper!

This little sweetheart is just right. She's moderate, she's smooth, she's deep, and she's gentle. Here's more proof that oldies are still goodies. This SVS EVERCLEAR FAR2 daughter is out of one of our original cow families, SVS LEADERS RED ROSE. SVS JUNIPER BERRY LXP7 is a brood cow deluxe in the making!

SVS BONANZA LGZF is a Homozygous Black, Homozygous Polled KOCH BIG TIMBER 685D son, with a deep middle and wide top. He's a balanced EPD calvingease sire with a beautifully feminine dam. His maternal sib, SVS ALEXIS KGZF, sells as Lot 10. Here's a real female producer!

This TJ CHIEF 460G son is a blaze-face 3/4 Simmental bull with a smooth pattern, clean front and a calm disposition. SVS FIREWATER LZUR should sire super blaze-face calves when used on mature Angus-based females and excellent replacement females with superb milking ability. He has a slightly cloudy eye from pinkeye as a calf. This Homozygous Black, Homozygous Polled sire is one to take home for sure!

 25
 45
 40

 SVS RATTLER LZPD is a deep bodied, square hipped son of TJ GOLD 274G and is an own son of our gorgeous donor, SVS RHINESTONE ZPLD. He's Homozygous Black, Homozygous Polled, clean-lined, long-sided and has balanced EPDs. He's one of the last SVS HUMDINGER TR21 grandsons to ever be offered. These genetics are simply the best.

SVS LONE STAR LHU9 is a black blaze-face, Homozygous Polled, maternal grandson of our tremendous donor, SVS SNICKERDOODLE US09. With balanced EPDs and rock solid genetics of his sire, HOOK'S YELLOWSTONE 97Y, this long-sided, clean-fronted, free-moving sire should be one to take your herd to the next level. These cow family genetics never fail.

 This black, Homozygous Polled son of SVS EVERCLEAR FAR2, our stout WS

 ALL-AROUND Z35 sire, is the right kind. With solid EPDs across the board, this

 long-sided bull travels with ease and has an excellent disposition. His dam, SVS

 RAVISHING RUBY CZTM is drop-dead gorgeous. SVS RAISIN' CAIN LCZM should

 add a lot of value to his offspring.

safe. SVS RAISE THE ROOF LCU9 excels in calving ease, growth and stayability. His maternal granddam, SVS SNICKERDOODLE US09, is undoubtedly the best female we've raised. He's Homozygous Black and Homozygous Polled, has some stretch and a touch of frame. Don't miss this opportunity to own these genetics that are as rare as hen's teeth!

Here's a really nice high maternal bull, who's Homozygous Black and Homozygous Polled. SVS FLYIN' SOLO LAXF is thick, deep, and has muscle expression in a long frame. This KBHR HONOR H060 son with solid EPDs, is bound to produce females that are the keepin' kind!

SVS EARTHQUAKE LJYF is a SVS STAMPEDE JDUM son, who is a stout son of TJ GOLD 274G. He is Homozygous Black and Homozygous Polled. With a smooth pattern and high capacity, this bull exhibits eye appeal in a nice profiling package. Use him on mature cows to make females that are super producers with great longevity in your herd.

This SVS FREEDOM FOR ALL GUM1 son comes from the SVS JOKERS DARLIN' MKD8 cow family, who never disappoints. SVS INNOVATOR LFBX is Homozygous Black and Homozygous Polled. He's moderate and is a frame reducer. With solid EPDs, use him on mature cows to ring the bell on sale day!

QUICK REFERENCE TO ASA EPDS AND \$ INDEXES

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www. simmental.org. Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a steak.

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)
Weaning Weight (WW): Pounds of weaning weight.
Yearling Weight (YW): Pounds of yearling weight.
Yield Grade (YG): Yield grade score.

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through wellconceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit simmental.org.
